

Report on Fire and Safety Workshop/Training Program

Organized by Department of Mechanical Engineering

Date: 19th August 2025

The Department of Mechanical Engineering organized a **Workshop/Training Program on Fire and Safety** on **19th August 2025** for **B.Tech 1st year students and ME (2nd, 3rd, and 4th year students)**.

Objective of the Program

The primary objective of the program was to provide students with **awareness and practical knowledge about fire safety**, including:

- Understanding the importance of fire safety measures
- Learning how to operate fire extinguishers effectively
- Knowing evacuation procedures and fire exit routes

Resource Person

The session was conducted by **Dr. M. P. Singh**, who delivered a lecture in the seminar hall, followed by a practical demonstration.

Total strength: 90 students

Program Flow

- The program began at **2:00 PM** in the seminar hall in the presence of the Director ,ACEM and Head of Department, Mechanical Engineering.
- After the inaugural session, the **resource person conducted an interactive lecture** on fire safety principles.
- At **3:15 PM**, a demonstration was planned. Initially, it was decided to hold the demonstration in the workshop, but later it was shifted to the seminar hall for convenience.

Demonstration Details

- During the demonstration, students were shown how to use fire extinguishers and the importance of fire exits.
